

Waiwaste Food Rescue

Strategic plan 2024-26

Vision

Our Wairarapa communities are well nourished through no-waste, local food systems.

Mission

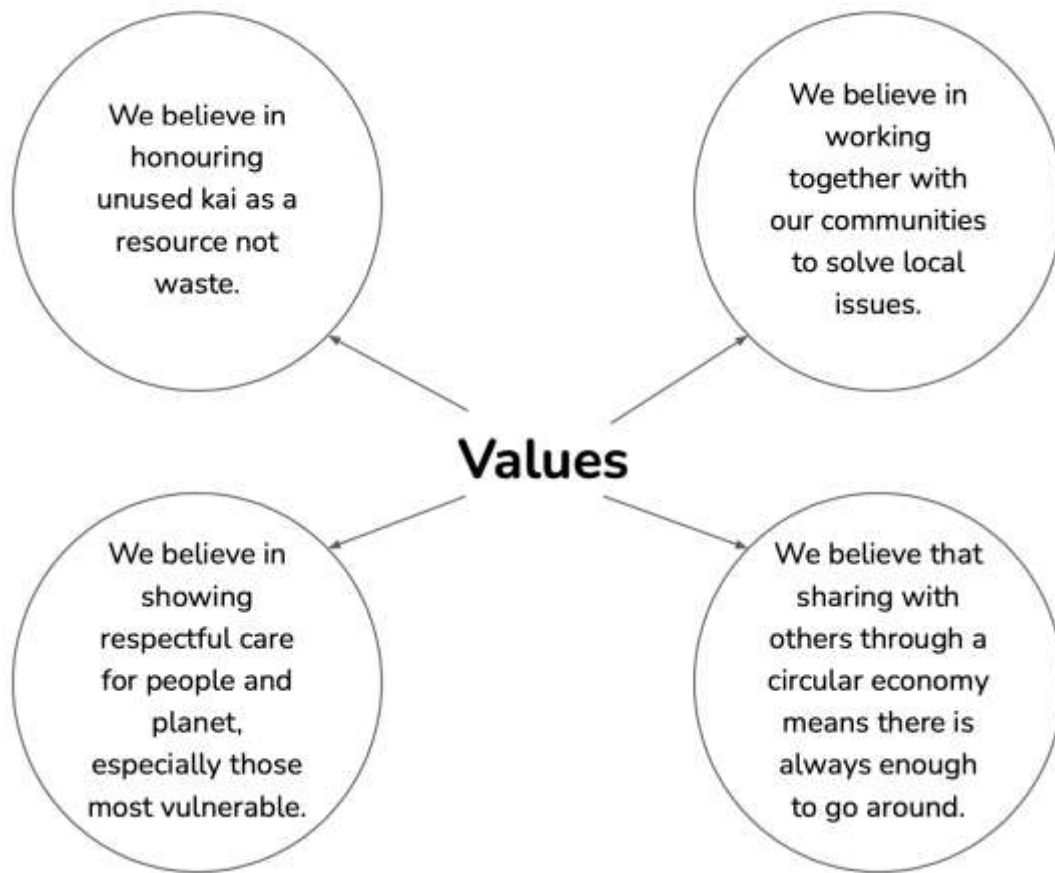

Feeding people, not landfill.

Te Tiriti o Waitangi Statement

Waiwaste recognises that hapū in Aotearoa never ceded sovereignty and we tautoko whānau, hapū, and iwi assertions of tino rangatiratanga.

How we create change

Championing the environment	Food sharing	Telling our story	Organisational resilience
We demonstrate environmental leadership by reducing food waste to landfills.	We nurture mana enhancing relationships with food donors, volunteers, and food recipient organisations, and we trust our partners to get the food to those who need it.	We inspire others by consistently communicating who we are and how our work makes a difference in our communities.	We are an adaptable and robust organisation which meets community needs through a strong volunteer base.

Key objectives

1. We will measure and minimise our environmental footprint as an organisation.
2. We will increase the volume and sources of nutritious rescued food available to our communities
3. We will continue to build strategic partnerships with funders, food recipients, and other food/waste network organisations.
4. We will share and celebrate our work through traditional and social media.
5. We will diversify the number and types of funding sources to ensure financial stability.
6. We will be able to distribute more food by having a plan for growth (both people and infrastructure).
